Discussion

On August 7, 2000, I left a voice-mail message for Cindy Burbach and subsequently discussed with Edd Kray the planned entry into the chemical exclusion area in Building 776 identified as Room 135, FBI Gloveboxes. I stated that work was planned to enter this area and that any chemicals found in this area will be managed in accordance with the B776 DOP and applicable regulations. Once this entry has been made the chemical exclusion area will be deleted and the requisite inspection stopped.
